

Study MBBS in Vietnam – Low-Cost Medical Education with Global Recognition!

MBBS in Vietnam, a way to fulfil your dream of becoming a successful doctor!

The MBBS program in Vietnam has emerged as a cost-effective and successful study destination. Each year many MBBS aspirants, especially from India, fly to Vietnam to study MBBS. Vietnam is geographically close to India, and its locals are very friendly with Indians. Thus, joining MBBS in Vietnam is safe, and students feel familiar in the country. The MBBS study in Vietnam lasts for 6 years, including a 1-year training program. If you have received a lower score on the NEET exam and are concerned about not being able to secure an MBBS seat in one of India's top government medical colleges, or if the fee structure at a private medical college is too high, it is advisable to consider pursuing the MBBS course in Vietnam.

Vietnammbbsadmission.com has always been a strong supporter and guide for Indian medical aspirants wishing to study MBBS abroad. Our expert team members offer round-the-clock consulting services, and the services have been client-satisfactory.

Before deciding to pursue an MBBS in Vietnam, it is essential to learn about Vietnam as a country as well as the MBBS program offered there.

Let's Understand Why the MBBS Program in Vietnam is a recommended option for Indian Students:

Geographically Close to India:

Vietnam is a neighbouring country to India, which makes travel convenient for Indian students. Traveling to Vietnam is less expensive and less time-consuming. Therefore, during vacations, Indian students can easily visit their families, which provide them with greater comfort and relaxation.

International Standard Medical Education:

The MBBS curriculum in Vietnam is aligned with global standards of medical education. Therefore, students studying at medical universities in Vietnam acquire the knowledge and clinical skills required to face international-level medical challenges.

English Medium Education:

Vietnamese medical institutions offer the MBBS program in the English language. Therefore, international students can pursue their education with greater convenience without facing any language barrier.

Budget-Friendly Tuition Fee:

The tuition fees of MBBS courses in Vietnamese medical colleges and universities are budget-friendly. Moreover, the scholarship facilities provided to students help reduce their financial burden.

Internship program:

The total duration of the MBBS course in Vietnam is 6 years. During the 5 years of academic study, students gain theoretical knowledge, while the 1-year training program conducted in affiliated hospitals helps them acquire advanced clinical skills.

World-class Education:

The MBBS course provided in Vietnam is popular worldwide. Experienced faculties provide education to the students and give much attention to the individual doubts of their students. The student-teacher ratios in the universities are appreciable. In well-equipped laboratories students acquire clinical skills guided by subject experts.

Modern Infrastructure:

The infrastructure of Vietnam's medical colleges and universities is developed according to the norms of the NMC and WHO. They provide encouraging study environments, reading rooms, smart classrooms, well-stocked libraries, advanced laboratories, and many other modern facilities.

Globally Recognized Medical Degrees:

Most of the medical universities in the country are globally recognized, and Indian students pursue the MBBS program at these recognized universities. Therefore, after the successful completion of the course, students receive globally recognized medical degrees.

In conclusion, the MBBS program in Vietnam is internationally recognized, world-class, and affordable. The country is safe and travel convenient for Indians. The MBBS admission process in Vietnam is simple. Students who have secured lower mark in NEET can easily get into the MBBS program in Vietnam.
